ART EXPLORATION PROGRAM

Art explorers will experience a broad range of visual and performing art forms through hands-on-activities and discussions. Each week is designed to encourage creativity with projects that relate to broad, contextual themes. Visual arts activities may include painting, multi-media sculpture, print-making and more. In performing arts classes, explorers discover new forms of expression through movement, acting, script-writing and story-telling. On the last day of class, friends and family are encouraged to support their budding artists by visiting their self-curated exhibit and performance! Performance, exhibition and reception at 2:30 on Fridays.
